REVIEW MARKETS; AND REAL ESTATE BUSINESS. THE

REVIEW OF MARKETS

FINANCIAL AND COMMERCIAL

Stocks, Money, Exchange, Bonds, Grain, Cotton, Provisions, Etc.

New York, Jan. 31.—To-day's stock market showed the stimulating effect of yesterday's sharp advances and increased activity in a largely augmented courside demand. The commission houses showed more buying orders to execute this morning than for many weeks past, and their brokers made at lively opening on the floor of the Board room. The great activity of the market and the steadiless of prices during the first hour made it obvious that specualities on yesterday's rise, and yet not d'sturb the new level of values. The steady and confident absorption of these offerings proved highly satisfactory to the professional buils, and before the end of the first hour they cammenced to bid up prices again and to take on new lines of stock.

The market was a good deal unsettled by a sudden break of four points in Sasar, and the announcement of the fatilate of an important Stock Exchange house. The closing out of the accounts of this house under the rule of the exchange caused a pause in the speculative activity, though the shares were well absorbed and prices well sustained. The lets prices of the day in the inalarity of stocks were made after this episode, the demand from the short interest becoming eager and pressing for some of the stocks which have been targets recently for the bear operations. The frightened shorts were cager to cover, and it cannot be said that the fightened shorts were cager to cover, and it cannot be said that the lower of the stocks which have been targets recently for the bear operations. The frightened shorts were cager to cover, and it cannot be said that the fightened shorts were cager to cover, and it cannot be said that the lower of the stocks which have been targets and the stocks which have been targets and the stocks of summer yellow. So said that the left prices of the day in the majority of stocks were made after this episode, the demand from the short in the special carries of the stocks which have been targets. The start

terest lecoming eager and pressing for 5 me of the stocks which have been targets recently for the bear operations. The frightened shorts were eager to cover, and it cannot be said that the bull confidence during the latter part of the day. They were disposed to avail themselves of the forced demand from the shorts to realize, and prices yielded quite materially during the last hour.

The mixed sentiments thus manifested were partly due to the majorian.

from the shorts to realize, and prices yielded quite materially during the last hour.

The mixed sentiments thus manifected were partly due to the facts disclesed by the day's incidents that an important part of yesterday's large buying was due to the reckless and intemperate attempt to recoup bear losses by plunging into a long account. It was evident that operators short of the general market had made a prodigated cutlay in Sugar, which relapsed weakly in face of an effort to realize profits. There was very heavy coering in evidence at various points in the list, the Industrial stocks, recently under pressure, being most conspicuously affected. The very heavy dealings in B. R. T. and a part of the demand for Steel and Wire, were attributed to this cluse. There was a very large demand, however, for Steel and Wire for the long account. The sympathetic effect on other metal stocks was less marked than yesterday. The aggressive strength seemed to impress foreign markets, and invited some small buying demand from London.

Conspicuous strength was displayed by the Grangers, the C-alers and some of the Southwestern, but the gains in the railroad stocks were much affected by the late realizing, and were nearly all reduced to fractional limits, after having extended well above a point.

Third Avenue and Pittsburg, C. C. and St. Louis continued heavy, in face of the general tendency of the market.

The money market continued very easy, whout reflect this in any degree the enlarged stock a tivity, and sterling exchange was distinctly reactionary.

Bonds were active, but yielded at some points. Total sales, par vaine, and a continued points. Total sales, par vaine, and the shade of the second of the general tendency of the market.
